

Design & Construction of Traffic Diversion for Wakra - Ras Abu Abboud Road Intersection

**PWA/GTC/040/10-11/L
IA/10-11/C/109/G**

*Client: ASHGHAL
Consultant: AECOM*

GTC 299/2009 Al Wukair RPS and Associated Pipes

*Client: KAHRAMAA
Consultant: Parsons International*

CP 626/2 Doha & Rayyan Sewerage AIN KHALID Area Sewerage Phase 2 (DA / 09-10 / C / 0002 / G) PWA/GTC 009/09-10

*Client: ASHGHAL
Consultant: COWI A/S*

Lusail Development Project Sewage Treatment Works TAC/LUS/101/09

*Client: LUSAIL Real Estate
Consultant: HYDER Consulting Engineers*

Design and build Microtunneling, Pipework, and Associated Works between the Pearl and the Golf Roundabouts

CP 678/3 Construction of PS 25 Twin 1,200mm Pumping Mains between chainage 655m to 1,359m (DA /09 -10 / C / 0016 /G) PWA/GTC 032/09-10

*Client: ASHGHAL
Consultant: ASCO Consulting Engineers*

GTC 269/2008 New Reservoirs & Associated Pipelines Gharrafa, West Bay Salwa Industrial and Bani Hajr Water Stations

*Client: KAHRAMAA
Consultant: Parsons International*

Doha North Sewerage Treatment and associated works TSE 3 Pumping Station & Main Civil Project 682/4 PWA/GTC 043/07-0

*Client: ASHGHAL / Marubeni Corporation
Project Manager: KEO International Consultants
Consultant: Stanley Consultants Inc.*

GTC 177/2007 Headworks Construction Airport, Old Salwa, Doha SW & Messaieed Town

*Client: KAHRAMAA
Consultants: Engineering Consultants Group S.A*

Energy City Qatar ECQ1 Civil Infrastructure Work

*Client: Energy City – Qatar
Consultant: ACE Consultants*

Complete infrastructure works for Energy City Qatar, including storm water drainage, sewerage, potable water, irrigation, power, telecommunications, traffic signals and roads networks

DSC 0039 C1 Doha & Rayyan Sewerage Schemes Construction of Muraikh Area Drainage & Outfall Civil Project 565

*Client: Public Works Authority
Drainage Affairs
Consultant: KEO International*

Construction of 18km surface water Microtunnel pipelines (dia 1500, 2000 and 2400mm, depths up to 20 m), trenching and conventional systems (dia 800 to 2000 mm). Construction of underground tank (capacity 50,500 m3) and pump station

Qatalum Project Anode Service Plant Civil Works Sub-Contract

Client: Kempe Engineering Services (Australia)

Infrastructure construction works including concrete slabs for large industrial structures, in addition to sewerage, storm water drainage, potable water, irrigation, telecommunication and roads networks

Barwa Housing Project Housing Project Infrastructure (Design and Construct)

*Client: Pancética
Housing Project
Consulting Engineer: ASCO*

Complete design and construction of infrastructure works on two sites (995 apartments each site) including concrete slabs for buildings and sewerage, storm water drainage, potable water, irrigation, telecommunication and roads networks

GTC 124/C/2006 – Package 3 Qatar Power Transmission System Expansion – Phase VII (Power Cables)

Client: Marubeni Corporation

Installation of 51km high voltage power (2 x 66 kV) underground cables

Water Supply to New Doha International Airport GTC98/2005 (Design and Construct)

Client: KAHRAMAA

Installation of 11km of 900 mm diameter ductile iron pipework

GTC 117/2006 Power Supply to New Doha International Airport and RAA Substation

Client: Marubeni Corporation

Installation of high voltage power (two x 66 kV lines) and fiber-optic underground cables

ERC1400D20/C4 Doha Expressway D-Ring Road Interchange

*Client: Public Works Authority, Roads Affairs
Consultant: Italconsult*

5km, 3-lane Dual Expressway, three level interchange, bridge and underpass structure, public utility services/ networks, microtunnels 2000 mm dia 2.5km, pavement, lighting and intelligent transportation systems

DFC 0340 Doha & Rayyan Sewerage PS 25 & 26 Catchments Sewerage Phase 2- Civil Project 622/2

*Client: Public Works Authority Drainage Affairs
Consultant: GHD Global*

Construction of 6km trunk sewer pipe network by Microtunneling, diameter 600mm to 2000 mm at depths up to 20m. Construction of underground Tank 4860m³ and temporary pump station

DFC 0358 Completion of Diplomatic Area Pumping Station Phase 1 Civil Project 621/2 & 622/3

*Client: Public Works Authority Drainage Affairs
Consultant: Khatib & Alami*

Construction of underground main surface water and sewerage tanks (capacities 13,350m³ and 4,500m³) with 900 l/sec Pump Station, along with 450mm and 900 mm diameter pipeline and outfall structure for West Bay towers area

Al Udeid Airbase Construction of roads and aeronautical pavements.

Various Clients including QEAF & USAF

GTC 5/2004 Qatar Transmission System Expansion Phase VI – Lot 2 Trenching and EHV Cables Installation

Client: ABB – Nexans Consortium

Installation of high voltage power (two x 66 kV lines) and fiber-optic underground cables

ERC 1400 C4 Development of Airport Road Al Matar Street

*Client: Public Works Authority
Road Affairs
Consultant: Conser Consultant Engineers*

Upgrading and reconstruction of 3 lane dual carriageway Al Matar Street, 7km long including public utility services: water, electricity, drainage networks, street lighting, landscaping, irrigation works and 5 traffic signals

DFC 0337 Doha and Rayyan Sewerage Abu Hamour Area Sewerage Phase 1, Civil Project 624 & 625

*Client: Public Works Authority
Drainage Affairs
Consultant: ASCO*

Construction of 50km trunk, branch and lateral sewer lines by Microtunnel/ trenching and conventional systems

GTC 41/2003 Extension and Looping of Water Distribution Mains in Al-Khor & vicinity

Client: Qatar General Electricity & Water Corporation

Installation of 120km of ductile iron water pipe networks for Al Khor City
